

HAVING OVER 50'S FORUM

We the undersigned are concerned the community policing we pay for to The Mayor's Office for Policing And Crime (MOPAC) no longer fits the needs of the London Borough of Havering. No access or points of contact, poor visibility of police on the streets, one police station in 43 sq. Miles, so no engagement or exchange of information with our neighbourhood police teams. LBH needs to feel a safe place to grow old and we no longer feel the current service fits our needs and is of poor value.

We support the Officers we have and this is no criticism of them.
